2.When the user clicks on the "verify stage" on the opportunity record page, it checks if the stage is closed. If the stage is 'Closed Won', shows Congratulation message in Green. If the stage is 'Closed Lost', shows message in Red. (For any other stages, don't show message at all)
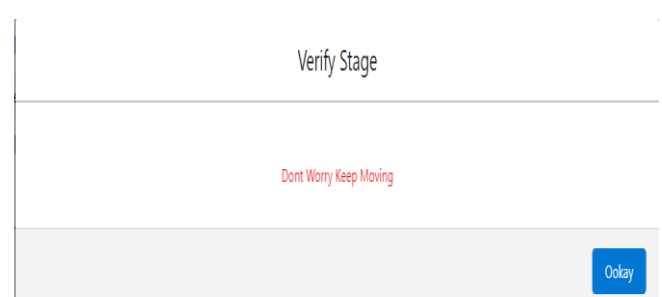

FLOW:

RESULT: <u>For Closed Won</u>   <u>For Closed Lost</u>

- In this Screen flow, the objective is to show the green message for closed won and red message for closed lost. For other stage we can hide the button on the lightning page by setting a Component Visibility to the Verify stage button.
- Then I have used decision element to identify whether it is Closed won or closed lost. If it is Closed won, it shows the closed won screen. If it is closed lost , it shows the closed lost screen.
